

Digital Ultrasonic Cleaner

faster, more thorough, and safer cleaning method

The Eclipse **Pro'sKit**® Ultrasonic cleaning is faster, more thorough, and safer than any other cleaning method. It is powerful enough to remove heavy oils, waxes, or proteins, penetrating deep enough to de-flux circuit boards, yet gentle enough to clean delicate precision assemblies. Eclipse **Pro'sKit**® Ultrasonic Cleaner is leak-proof, easy to handle and safe to fill. The digital models feature a microprocessor controlled thermostat and digital readout which offers you maximum control of the cycle time and temperature all in one setting. With a touch of the control you can set and monitor exact cleaning cycles for up to 99 minutes.

Features:

- Tight fitting lid design for effective noise reduction.
- Product's durability and safety is ensured by enhanced water resistance.
- Cleans discs such as CDs, VCDs, DVDs, etc.
- Use only plain tap water to clean.
- Removes dirt effectively; results can be seen with naked eyes!
- Clean articles to shine just like new.
